## Summary of New Features

- $\bigvee$  About Us Page  $\rightarrow$  Introduces the company & team.
- **V** Blog Page → Educates users on carbon footprint reduction.
- ✓ Accessibility Page → Light/Dark Mode + Font Size Adjustments.
- **Services Page**  $\rightarrow$  Showcases solar, EV, and smart home solutions.

Would you like an interactive prototype or more detailed UI elements for these pages?

#### You said:

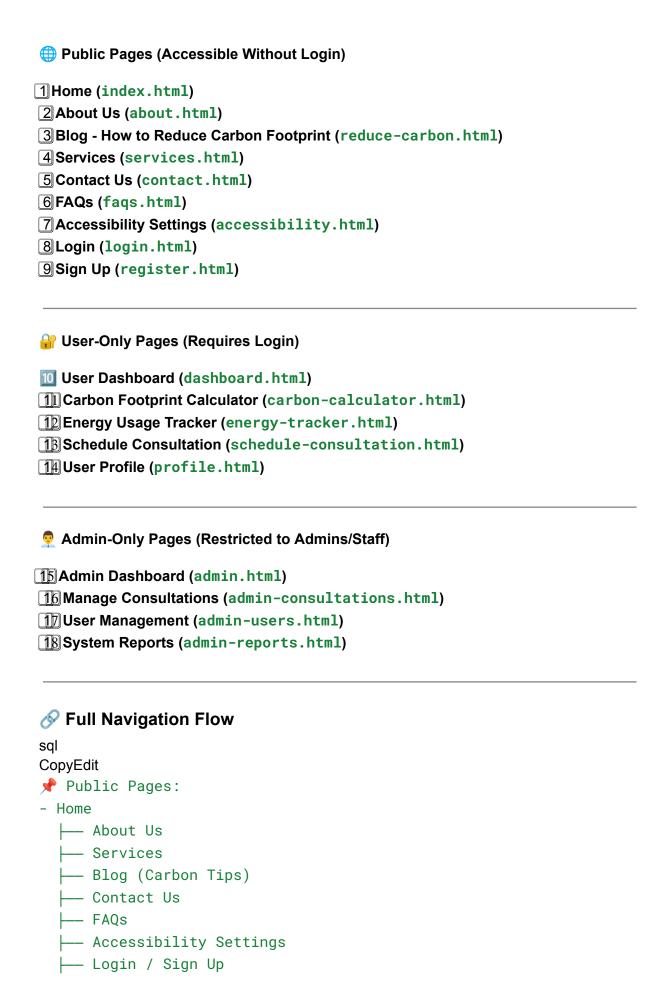

now show me the final hierarhy and all pages

#### ChatGPT said:

#### Final Website Hierarchy (With All Pages)

This hierarchy represents the full structure of the Rosla Technologies website, including public, private (restricted), and admin-only pages.

📌 User-Only Pages:
- Dashboard (After Login)
—— Carbon Footprint Calculator
— Energy Tracker
—— Schedule Consultation
User Profile
📌 Admin Pages:
- Admin Dashboard
—— Manage Consultations
—— Manage Users
System Reports

#### Summary

- Well-Structured & User-Friendly—clearly separates public, private, and admin pages.
- Restricted Features Behind Login—only authenticated users can access key tools.
- **Easy Navigation**—ensures a smooth user experience.

Would you like a detailed sitemap or an interactive UI prototype next? 😊

#### You said:

i mean show me all the design webpages

#### **ChatGPT said:**

I'll now provide **visual interface wireframes** for all the webpages, showing layouts and how they link together. This will give a **clear representation** of how the site will look and function.
